

Hello to all our new and existing patients.

UPDATES FROM THE PRACTICE

We'd like to start by taking a moment to say a huge thank you to our wonderful patients for your continued support and kind feedback. Your reviews truly mean so much to our entire team and help others feel confident choosing our practice. Thanks to you, Ilkley Dental Care is now a Google 5 star rated practice, and Belle Vue is a 4.9 star rated practice! Your trust, recommendations, and reviews genuinely help our practice grow, and we're incredibly grateful for every one of them.

With that being said, we're delighted to let you know that we are currently welcoming new patients, with a new patient dental health check available for £75 (usually £150). If you have friends, family, or colleagues who are looking for a dentist they can trust, we would be very grateful if you sent them our way, we'd love to look after them.

We wanted to let you know about the roadworks that have now started (Monday 19th January) along the A65 between Ilkley and Addingham, these are expected to last for around 10 weeks. If you're travelling to see us, please allow a little extra time for your journey. If you think you might be late, please call the practice to let us know, we may need to rearrange your appointment. Thank you for your understanding.

ILKLEY DENTAL CARE & BELLE VUE DENTAL PRACTICE

TREATMENT SPOTLIGHT

Crowns

Do you have a damaged, weakened, or heavily filled tooth?

A Crown is an excellent way to restore strength, appearance, and function. It helps protect your tooth/teeth and keeps your smile healthy for years to come. Modern crowns are designed to look natural, feel comfortable, and blend seamlessly with your existing teeth.

What Is a Dental Crown?

A dental crown is a custom-made cap that fits over a tooth to restore its shape, size, strength, and appearance. Crowns are commonly used after root canal treatment, to protect cracked or worn teeth, or to improve the look of discoloured or misshapen teeth.

Once placed, a crown covers the visible portion of the tooth, providing long-lasting protection and support.

Benefits of Dental Crowns:

- Restores strength and durability
- Protects weakened or damaged teeth
 - Improves appearance and smile confidence
- Allows comfortable chewing and biting
- Long-lasting and reliable solution

Why Might You Need a Crown?

A dental crown may be recommended if you have:

- A tooth weakened by decay or a large filling
- A cracked, chipped, or worn tooth
- A tooth that has had root canal treatment
- Severe discolouration or an uneven shape
- A broken tooth needing structural support

Cost of Treatment:

Starts from £714.00

A dental crown helps preserve your natural tooth while restoring its function and appearance, supporting your bite, smile, and long-term oral health.
